KAUSTUBH JADHAV

CSE Student | Full Stack Developer | Java & MERN Stack Enthusiast

kaustubhjadhav0043@gmail.com | +91-8805565585 | linkedin.com/in/kaustubh-jadhav | github.com/Kaustubh0043

PROFESSIONAL SUMMARY

Motivated Computer Science student (B.Tech, Final Year) with hands-on experience building full stack web applications using React.js, Node.js, Django, Spring Boot, and PostgreSQL. Completed a Java Programming internship at Anudip Foundation, deepening backend skills in Advanced Java OOP, JDBC, and multithreading. Passionate about scalable systems, clean REST APIs, and intuitive interfaces. Seeking a software development internship to contribute to real-world engineering teams.

WORK EXPERIENCE

Java Programming Intern — Anudip Foundation **Feb 2026 – May 2026 · 4 mos**

Internship · Pune District, Maharashtra, India · Hybrid

- Mastered Advanced Java concepts including OOP, exception handling, collections, multithreading, JDBC, and database connectivity across a structured 4-month internship program.
- Developed console-based and application-oriented programs, improving problem-solving, debugging, and backend development skills.
- Applied Java fundamentals to build structured, maintainable code aligned with industry practices and modern backend workflows.

Introduction to Programming — Anudip Foundation **Mar 2025 – May 2025 · 3 mos**

Internship · Pune District, Maharashtra, India · On-site

- Completed a 132-hour course with an A1 grade covering programming fundamentals, problem-solving, logic building, and core software development concepts in Java.
- Gained hands-on understanding of variables, loops, conditional statements, functions, and basic OOP concepts through structured exercises.

Web Development Trainee — Sumago Infotech Pvt. Ltd. **Jul 2022 – Aug 2022 · 2 mos**

Full-time · Nashik, Maharashtra, India · On-site

- Completed industrial training in frontend web development — learning HTML, CSS, and Bootstrap to build responsive, user-friendly web interfaces.
- Gained practical experience creating static web pages with structured layouts, cross-browser compatibility, and mobile-responsive design.

PROJECTS

PathPilot AI — AI Career Platform | React, Spring Boot, FastAPI, PostgreSQL, Docker, Google Gemini API | GitHub | Live Demo

- Architected a microservice-ready career platform combining a Spring Boot + JWT core, a FastAPI/LangChain AI microservice, and a React/Vite frontend, orchestrated with Docker Compose.
- Built an ATS resume analyzer, job-description matching engine, and a RAG-based document Q&A system using ChromaDB and Google Gemini for context-grounded responses.
- Developed a gamified skill-tracking dashboard with streak tracking, AI-generated syllabus roadmaps, and a strict-grading interview simulator.

Lake N Trails — Exotic Glamping Portfolio | Next.js 15, React 19, TypeScript, Tailwind CSS, Framer Motion, Lenis | GitHub | Live Demo

- Engineered an interactive booking wizard using client-side React hooks to dynamically calculate package tariffs, custom weekday/weekend rates, child discounts, and pet add-ons with tax invoice generation.
- Implemented a dark/light dual-theme architecture with local storage persistence and server-side preloader classes to avoid hydration mismatch flashes.
- Curated and optimized 120+ media assets, including drone footage and HD imagery, and built a responsive fullscreen lightbox with z-index stacking to resolve overlap issues on mobile.

College Discovery Platform | Next.js 14, Node.js, Express.js, PostgreSQL, JWT, Tailwind CSS v4 | GitHub | Live Demo

- Architected a production-grade platform featuring 30+ elite Indian institutions with real-time search, filtering, and a side-by-side college comparison engine.
- Built a JWT-authenticated Q&A community forum and AI-backed college predictor that matches student JEE ranks against institutional cutoff data using serverless PostgreSQL (Neon).
- Deployed frontend on Vercel and backend on Render with secure BcryptJS authentication and environment-driven configuration for production readiness.

MindEase — Student Wellness Ecosystem | React.js, Spring Boot, Web Audio API, Firebase | GitHub | Live Demo

- Built a full stack institutional wellness platform with role-based access for students and counselors, featuring mood tracking, personalized insights, and a campus-wide monitoring portal.
- Implemented OTP-based 6-digit authentication with decentralized encryption; integrated Web Audio API for real-time breathing guidance and procedural audio.
- Designed a responsive, accessible UI with glassmorphism styling; prioritised performance with optimised component rendering and cross-device layout consistency.

EDUCATION

Bachelor of Technology — Computer Science & Engineering **Sep 2024 – 2027**

Alard Group of Institutes (Alard University), Pune

Diploma in Computer Science & Engineering **2021 – 2023**

Government Polytechnic Nandurbar, Maharashtra, India

School (CBSE) **Jun 2015 – Mar 2020**

Podar International School, Nandurbar, India

TECHNICAL SKILLS

Frontend: React.js, Next.js, Angular, Tailwind CSS, Bootstrap, HTML5, CSS3, TypeScript

Backend: Node.js, Express.js, Django, Spring Boot, REST APIs, JWT, Session Management, BcryptJS

Databases: MongoDB, MySQL, PostgreSQL — schema design, CRUD operations, relational modelling

Languages: JavaScript, TypeScript, Python, Java (Advanced — OOP, JDBC, Multithreading), C

Tools: Git, GitHub, VS Code, Android Studio, JetBrains IDEs, Vercel, Netlify, Postman, Firebase

Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, OOP, Software Engineering

CERTIFICATIONS

- Virtual Internship Program (ServiceNow Administration Fundamentals, CSA Exam Prep) — ServiceNow University & SmartBridge (Jul 2026)
- Java Programming Fundamentals — Infosys Springboard (May 2026)
- Artificial Intelligence Fundamentals — IBM
- Software Engineering Job Simulation — JPMorgan Chase
- Getting Started with AI — NVIDIA
- Computer Vision with Azure — Microsoft

ACHIEVEMENTS

- **A1 Grade — Introduction to Programming:** Top grade in a 132-hour structured programming course at Anudip Foundation, demonstrating strong foundational software development skills.
- **6 Industry Certifications:** Earned from IBM, Microsoft (Azure), NVIDIA, JPMorgan Chase, and Infosys — spanning AI/ML, cloud, and professional engineering simulations.
- **Production Deployments:** Built and deployed 4+ full stack projects including 2 production-ready applications — indexing 30+ colleges, serving real users, with live deployments on Vercel and Render.
